

## 何时使用 {#when-to-use}

当有重要操作需告知用户处理结果，且反馈内容较为复杂时使用。

## 代码演示

### Success

```
import React from 'react';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    status="success"
    title="Successfully Purchased Cloud Server ECS!"
    subTitle="Order number: 2017182818828182881 Cloud server configuration
takes 1-5 minutes, please wait."
    extra={[
      <Button type="primary" key="console">
        Go Console
      </Button>,
      <Button key="buy">Buy Again</Button>,
    ]}
  />
);

export default App;
```

### Info

```
import React from 'react';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    title="Your operation has been executed"
    extra={
      <Button type="primary" key="console">
        Go Console
      </Button>
    }
  />
);

export default App;
```

## Warning

```
import React from 'react';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    status="warning"
    title="There are some problems with your operation."
    extra={
      <Button type="primary" key="console">
        Go Console
      </Button>
    }
  />
);

export default App;
```

## 403

```
import React from 'react';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    status="403"
    title="403"
    subTitle="Sorry, you are not authorized to access this page."
    extra={<Button type="primary">Back Home</Button>}
  />
);

export default App;
```

## 404

```
import React from 'react';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    status="404"
    title="404"
  />
);

export default App;
```

```

        subTitle="Sorry, the page you visited does not exist."
        extra={<Button type="primary">Back Home</Button>}
      />
    );

export default App;

```

500

```

import React from 'react';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    status="500"
    title="500"
    subTitle="Sorry, something went wrong."
    extra={<Button type="primary">Back Home</Button>}
  />
);

export default App;

```

Error

```

import React from 'react';
import { CloseCircleOutlined } from '@ant-design/icons';
import { Button, Result, Typography } from 'antd';

const { Paragraph, Text } = Typography;

const App: React.FC = () => (
  <Result
    status="error"
    title="Submission Failed"
    subTitle="Please check and modify the following information before
resubmitting."
    extra={[
      <Button type="primary" key="console">
        Go Console
      </Button>,
      <Button key="buy">Buy Again</Button>,
    ]}
  >
    <div className="desc">

```

```

    <Paragraph>
      <Text
        strong
        style={{
          fontSize: 16,
        }}
      >
        The content you submitted has the following error:
      </Text>
    </Paragraph>
    <Paragraph>
      <CloseCircleOutlined className="site-result-demo-error-icon" />
Your account has been
      frozen. <a>Thaw immediately &gt;</a>
    </Paragraph>
    <Paragraph>
      <CloseCircleOutlined className="site-result-demo-error-icon" />
Your account is not yet
      eligible to apply. <a>Apply Unlock &gt;</a>
    </Paragraph>
  </div>
</Result>
);

export default App;

```

## 自定义 icon

```

import React from 'react';
import { SmileOutlined } from '@ant-design/icons';
import { Button, Result } from 'antd';

const App: React.FC = () => (
  <Result
    icon={<SmileOutlined />}
    title="Great, we have done all the operations!"
    extra={<Button type="primary">Next</Button>}
  />
);

export default App;

```

## 组件 Token

Debug

```
import React from 'react';
import { Button, ConfigProvider, Result } from 'antd';

const App: React.FC = () => (
  <ConfigProvider
    theme={{
      components: {
        Result: {
          titleFontSize: 18,
          subtitleFontSize: 14,
          iconFontSize: 48,
          extraMargin: `12px 0 0 0`,
        },
      },
    }}
  >
    <Result
      status="success"
      title="Successfully Purchased Cloud Server ECS!"
      subTitle="Order number: 2017182818828182881 Cloud server
configuration takes 1-5 minutes, please wait."
      extra={[
        <Button type="primary" key="console">
          Go Console
        </Button>,
        <Button key="buy">Buy Again</Button>,
      ]}
    />
  </ConfigProvider>
);

export default App;
```

## API

通用属性参考: [通用属性](#)

参数	说明	类型	默认值
extra	操作区	ReactNode	-
icon	自定义 icon	ReactNode	-
status	结果的状态, 决定图标和颜色	success   error   info   warning   404   403   500	info

subTitle	subTitle 文字	ReactNode	-
title	title 文字	ReactNode	-
